

Jaime Nicolás Melo

Software Engineer

Software engineer with two years of experience in designing, developing, and deploying robust web applications. Collaborated closely with cross-functional teams of 6-10 members to deliver high-quality products within project deadlines.

WORK EXPERIENCE

Software Engineer

February 2023 – Present

Nicolas Digital

- Designed and built simple, tasteful e-commerce websites, brand portfolios, and mock-up sites for clients.
- Engineered a full Stack Web Application using React, CSS, Express, MySQL and Node.js for startup Tienda Sound. With user integration, authentication, product creation and customization.
- Researched and implemented popular libraries and modules that best suited client projects requirements.

Software Engineer

June 2022 – August 2023

100devs

- Collaborated with teams of developers to design and build responsive full stack (MERN) web applications using agile best practices.
- Maintained detailed documentation and git history for all projects and used Github in a team environment.
- Built 5+ semantically structured and responsive full stack web applications for mobile and desktop devices.

Intake Department Supervisor

June 2021 – May 2022

Hoglund Law

- Oversaw intake department staff, including hiring, training, and performance management.
- Analyzed intake data to identify trends, assessed performance, and informed decision-making.
- Worked closely with other departments, such as legal and administrative teams, to streamline workflows and improve client experiences.

PROJECTS

Tienda Sound

<https://github.com/Kakyouin86/Tienda-Sound>

Full stack ecommerce application with user profiles, product creation, & database integration.
